

The New American Dream Wallet Buddy

Instructions:

1. Print out this page, preferably on the blank side something you don't need, like a pizza flyer, credit card offer, or other piece of paper that is otherwise cluttering your life.
2. Cut out each wallet buddy on the dotted lines and fold on the solid lines (folding the sides together first, then the folding the bottom flaps up).
3. Tape the edges together so they don't fall apart.
4. Insert your credit or debit card in one; use the second buddy for a different card, or give it to a friend.
5. Read when planning to use your card.
6. Put card back in wallet when appropriate to save money, buy wisely, and reach your financial goals more quickly!
